CLIENT

EDILINDUSTRIA SPA

DESIGNER

CONSORZIO PROGETTAZIONE
ARCH. ROMIATI

WORKS DURATION

9 MONTHS

SECTOR

RENOVATION

The architect Giuseppe Sardi designed palazzo Flangini, a prestigious XVIII Century Venetian palace giving onto the Grand Canal. It belonged to the Flangini family, and its façade is decorated with several sculpture friezes.

The building is composed of two noble floors and still keeps numerous valuable architectural elements, as well as precious decorations dating back to the XVIII Century.

The palace is being protected by the Superintendence for Architectural and Landscape Heritage.

WORKS EXECUTED

General Contractor for the conservative restoration works.

Project realized by Luigi Cividini Spa
