**LOCATION**

ITALY\_DOLO (VE)

**CLIENT**

AIREST SPA

**DESIGNER**

GRAPHSTUDIO

**WORKS DURATION**

10 MONTHS

**SECTOR**

SERVICES

Airest Spa, a society that has been working worldwide in the field of quick service restaurants and big stores designed for a customer on the go, commissioned the building of two new rest areas along the A4 Milan-Venice highway, by Arino. These areas became the highway's largest ones. The Arino East and West Ristop buildings consist of two floors, with an area of almost 1.500 square meters. They are equipped with solar panels, insulated glasses with low emissions and naturally ventilated facades.

Outdoor, there is also a wide parking lot for cars and trucks.

**WORKS EXECUTED**

General Contractor.
